

SHAKE SATIN

The rustic charm of traditional shake

The Metrotile Shake satin-finish tile features the wood-grain appearance of traditional shake. Its deep-ribbed profile is designed to enhance the shadow lines and create visual contrast. With Metrotile Shake you can enjoy this look combined with all the benefits of steel. Metrotile Shake satin-finish tiles are available in a choice of 8 attractive colours, and is also available in a stone-coated finish.

Extensive research and development in the design process ensures every Metrotile product is manufactured to the highest quality with exceptional durability and strength. The tile profiles and roofing accessories are engineered to interlock and overlap to resist wind lifting and keep out the harsh elements. At less than 5kg/m², a Metrotile roof is a 'Lightweight Roofing System', so considerable cost savings can be achieved during construction. The perfect replacement for your old existing roof, a Metrotile roof lets you improve the look and value of your home in a matter of days

All of Metrotile's roofing products are fabricated from Zinalume[®] protected steel. Metrotile's satin finish enjoys added protection thanks to an acrylic top coat that is three times thicker than colour-coated steel. This extremely durable

UV-resistant coating enables Metrotile roofing products to withstand the harshest environments around the world. The satin finish system uses only the best quality pigments to ensure excellent colour retention and corrosion resistance.

Metrotile is ISO 9001 accredited. International test reports, appraisals and field results confirm our products are 100% waterproof, earthquake safe, fire resistant and able to withstand hurricane-force winds of up to 190kph. A Metrotile roof will not only safeguard your investment but will also give you complete peace of mind because it's backed by a Metrotile warranty.

You will not find a more durable, versatile and attractive roofing product on the world market that will surpass Metrotile's quality and affordability.

Minimum roof pitch: 15 degrees

* Warranties may vary depending on climatic conditions.
